CONTENTS OF VOLUME 8

No. 1, March 1981

Pharmacological evidence for multiple sites of action of pressure in mice. P. Rowland-James, M. W. Wilson, and K. W. Miller 1

Phospholipid synthesis in isolated perfused lungs of rats made tolerant to 100% oxygen. R. G. Johnson and T. E. Nicholas 13

Alterations in mouse fecal flora associated with hyperbaric stress. O. P. Daily and J. D. Gillmore 23

Validity of self-reported work experience among U.S. Navy divers. R. J. Biersner, M. L. Dembert, and M. D. Browning. 33

Venous gas bubble production following cold stress during a no-decompression dive. R. Dunford and J. Hayward 41

Hyperbaric chamber for evaluating hydrostatic pressure effects on tissues and cells. P. M. Hogan, H. Ch. Örnhagen, T. J. Doubt, B. S. Laraway, R. A. Morin, and J. Zaharkin 51

Method for separation of cells and suspending medium at high pressure. J. M. Goldinger, B. S. Kang, R. A. Morin, C. V. Paganelli, and S. K. Hong 59

Letters to the Editor 63

No. 2, June 1981

A system for pharmacological studies in small animals at high pressure. L. Aanderud. 69

Instrumentation for measuring cardiac output by direct Fick method during liquid ventilation. E. M. Sivieri, G. D. Moskowitz, and T. H. Shaffer 75

Control of HPNS in humans during rapid compression with trimix to 650 m (2132 ft). P. B. Bennett, R. Coggin, and J. Roby 85

Ruthenium red staining of blood-bubble interface in acute decompression sickness in rat. V.-P. Lehto, I. Kantola, T. Tervo, and L. A. Laitinen. 101

Effects of high hydrostatic pressure on rat atrial muscle. H. Ch. Örnhagen and S. B. Sigurdsson 113

Interactions of thiopentone, light mineral oil, and pressure at frog sciatic nerve. C. Armon and D. Kerem 121

Book Reviews

Biophysics and physiology of carbon dioxide. C. Bauer, G. Gros, and H. Bartels, Eds.
Reviewed by E. H. Lanphier 127

Radiation effects on aquatic organisms. Nobuo Egami, Ed.
Reviewed by C. W. Shilling 127

Directory of hyperbaric treatment chambers: United States and Canada. William E. Bryant and David A. Moore.
Reviewed by John C. Naquin 128

Letters to the Editor 129

Letters to the Editor 129

No. 3, September 1981

Methods for liquid filling inflated lungs and measuring any retained gas.
B. A. Hills and R. E. Barrow 131
Suppressed renin release during hyperoxia in the conscious dog.
B. R. Walker, S. K. Hong, B. K. Mookerjee, and J. A. Krasney 137
Effectiveness of a breath during exercise in a hyperbaric environment.
H. D. Van Liew and D. K. Sponholtz 147
Size distribution of intravascular air emboli produced by decompression.
B. A. Hills and B. D. Butler 163
Failure of naloxone or physostigmine to reverse nitrogen anesthesia in guinea pigs. H. F. Nicodemus and H. McElroy 171
Hydrostatic pressure reduces synaptic efficiency by inhibiting transmitter release. J. L. Parmentier, B. B. Shrivastav, and P. B. Bennett 175

No. 4, December 1981

Blood cell changes in asymptomatic divers. E. E. P. Barnard and P. K. Weathersby 187
Application of a bubble formation model to decompression sickness in fingerling salmon. D. E. Yount 199
Effects of CO_2 insensitivity and respiratory pattern on respiration in divers.
J. B. Morrison, J. T. Florio, and W. S. Butt 209
Pressure equilibration of the middle ear during ascent. H. Ch. Örnhagen and P. Tallberg 219
Increased pulmonary vascular resistance during liquid ventilation.
C. A. Lowe and T. H. Shaffer 229
A pilot study of skin disinfection in the hyperbaric environment. G. Nichols, R. F. Goad, B. Page, and N. Lightfoot 239
